

A great opportunity to exercise your role as a citizen and fulfil your Corporate Social Responsibility obligations!

The association CHAPATECA aims at promoting access to books and information for Mozambican people in situations of socio-economic vulnerability, with a special focus on developing the reading and writing skills of youth.

Education is a fundamental right of every human being and a powerful tool of social transformation!

For these reasons the association Chapateca plans to open **community-based libraries**, in partnership with local associations and community leaders, in the suburban areas of Mozambique larger cities with less access to educational infrastructures.

We will have two types of libraries: the **Kayatecas** (ordinary libraries, i.e. a physical space) and the **Chapatecas** (mobile entities consisting of a minibus transformed into a library).

Both libraries will operate in the same way, implementing the same activities:

- Free access to books
- Storytelling and drama
- Graphic arts
- Manual arts
- Open-air cinema

The Chapateca association is looking for partners to support the implementation of its activities, either by donations of materials or by direct financial support.

By supporting our educational project, you contribute to the formation of the new generations, your future collaborators!

For more information please see our leaflet attached or contact us:
